THE BREAKFAST

Let the guest talk from public reviews ...

Also the breakfasts are prepared by Selina and they're delicious and every day of our stay they were different

Celina's breakfasts are fast becoming legendary. She baked up delicious gluten-free muffins and bread for my GF-intolerant husband and each morning's offerings were wonderfully different

Celina prepares the best homemade breakfasts that are not only delicious, but you can taste the love in her creations

The breakfast was simply magical! The table was decorated like in a movie and the breakfast was very tasty (sweet and salty with homemade bread and cake and lot of fruits)

Making a positive impact on the local community and helping protect the environment is at the center of our everyday activities. More glass and no more straws and plastic disposables, buying local products as much as possible, supporting environmental local projects like Sloth Conservation or Connected Gardens. Just to give you an example, we are planting almond trees in our mountain reserve which are essential for the future of the endangered green macaw.
